

# PARTY GAMES

## WINK MURDER

### How to Play

- 1 Pick someone to be in charge (this person will not be able to play)
- 2 Everyone else must sit in a circle and shut their eyes (no peeking now!)
- 3 The person who is not playing must walk around the circle. He or she will tap one person on the head once. That person is the murderer. Then they must tap a different person on the head twice. This person will be the detective.
- 4 The person who is not playing can then tell everyone to open their eyes.
- 5 The detective sits in the middle of the circle. No one should know who the murderer is. It is the detective's job to discover the identity of the murderer.
- 6 The murderer 'kills' people by winking at them.
- 7 When the murderer winks at a person, that person must pretend to die. Once a person has been killed they cannot sit back up in the circle. They must either sit further out, or continue to lie on the ground.
- 8 The detective is given three chances to guess who the murderer is. If the detective does not guess correctly then they must also be detective in the next round. If they do discover who the murderer is then the murderer becomes the detective!
