

Make an **ELMER** paper plate mask!

Make this Elmer mask for your Elmer Day parade or wall display.

You will need:

- 2 paper plates
- White card
- Squares of coloured tissue paper
- Glue
- Scissors
- Googly eyes

Instructions:

-  Cut one paper plate in half and stick the two pieces onto the plate to make Elmer's ears.
-  Cut out a trunk shape from the white card and stick it onto Elmer's face.
-  Decorate your mask by sticking colourful tissue paper squares in a patchwork pattern.
-  Add Elmer's eyes to the mask (we've used googly eyes, but you could make your own with paper and pens).

Top Tip:

You could make Elmer's trunk by decorating toilet roll tubes with tissue paper squares and stringing them together.
